EDUCATION

- Brown University** Providence, RI | September 2026 – Present
- Computer Science and Philosophy Concentration
 - Socially Responsible Investment Fund (Analyst), Columbia University DivHacks Hackathon (Winner),
- Phillips Academy Andover** Andover, MA | September 2022 – May 2026
- SAT: 1590/1600 (99th Percentile) | PSAT: 1490/1520 (99th Percentile)
 - Caroline D. Bradley Scholar (merit-based full scholarship), Co-Head of Andover Climate Lobby, Co-Head of EcoAction, Lead Peer Tutor (AP Math, AP Physics, Chess), Andover Ambassadors (Head Tour Guide)

WORK EXPERIENCE

- Asteria Labs** San Francisco, CA
Founding Engineer July 2026 – Present
- Developed video avatars and trained them as AI staffers on the product website to improve user experience and guide product sales
 - Led go-to-market strategy and conducted sales outreach and direct customer communications to test and sell the product
 - Shaped the product timeline and initiated features including cartoon-character avatars, cross-website product comparisons, and computer-use for agents
- Massachusetts Institute of Technology (MIT Energy Initiative)** Boston, MA
Research Assistant July 2025 – May 2026
- Performed US automotive market and emissions analysis under Director Randall Field, projecting paths to net-zero transportation emissions through renewable powertrains and alternative fuels; paper to be submitted for publication in January
 - Conducted scientometric analysis of AHA medical papers under Professor Leo Celi, analyzing participant demographics and reporting frequency; paper with findings to be submitted for publication in January
- Northeastern University (Helmuth and Zellner Lab)** Boston, MA
Research Assistant May 2025 – July 2026
- Designed a heat participatory model to track the effectiveness of green infrastructure in urban spaces for communities and city planners under Professor Moira Zellner; led literature synthesis and model calibration; paper with findings to be submitted for publication in April
 - Analyzed sea star anatomy and resilience under Professor Brian Helmuth; conducted direct nature exhibitions and biological testing; presented findings at the 2025 NEOSEC conference
- Cambridge University** Cambridge, UK
Research Assistant August 2025 – January 2026
- Developed a Sphere Neural Network model to enhance AI interpretability for syllogistic reasoning problems under Dr. Tiansi Dong; co-authored a paper submitted to the ICLR conference
 - Led model testing and training and created the datasets of syllogistic reasoning problems used to evaluate the model
 - Presented the team's work in a talk at Cambridge
- Tencent Spark Camp** Shenzhen, China
Cyber Security Student July 2024
- Selected to participate in an intensive in-person training program organized by Tencent with a <5% acceptance rate
 - Identified CVEs (Common Vulnerabilities and Exposures) using Git and WordPress to infiltrate the back-end of simulated websites and obtain admin permissions as coordinator of the student team
 - Conducted Blue Team cybersecurity defense by analyzing website logs through Elastic and Katana to identify and nullify potential threats using AI
- Canadian Solar** Suzhou, China
Marketing Intern June 2023 – July 2023
- Provided recommendations for improved governance and social-impact procedures based on analysis of industry peers' ESG reports; findings were included in the company's 2023 Annual Report
 - Created marketing videos highlighting new products and the production process, leveraging media trends to capture a broader audience
- OpenAir** Andover, MA

- Coordinated 12+ meetings with carbon-capture government officials such as MA Rep. Seth Moulton and organizations such as Project Vesta, a company using sand to absorb carbon dioxide
- Recruited 50+ students as new Youth Activists, led a call bank station at the school library with 100+ participants, and collaborated with school deans and 50 EcoAction leaders to implement monthly climate education for 1,200 students

LEADERSHIP & ACTIVITIES

Institute for Educational Advancement

Los Angeles, CA

*Caroline D. Bradley Scholar**January 2022 – Present*

- Selected as one of 30 students per year nationwide to receive a four-year merit-based scholarship to any private high school in the U.S., with a <3% acceptance rate
- Attend an annual conference with all Scholars to discuss education and engage with a large alumni network

Four Star Leadership with General Tommy Franks

Edmond, OK

*Four Star Leader**July 2025*

- Built connections with top high school leaders selected from across all 50 states
- Led 4 debates on national policy and lobbying
- Delivered speeches on cell phone usage to over 100 students

Tournament Chess

Andover, MA

*FIDE Candidate Master and USCF National Master**May 2015 – Present*

- Rated 2230 USCF and 2050 FIDE
- Placed 2nd in the 2023 Massachusetts High School Spiegel Cup Championship
- Placed 3rd in the 2021 North American Youth Championships (Under-14 age group)

Varsity Track and Field

Andover, MA

*Long Jump and Short Sprints**December 2022 – Present*

- Joined the Andover Varsity team in sophomore year as one of its youngest members
- Mentored younger students on the combined JV and Varsity team as long jump event group leader by leading practices
- Hold five school records (100M, 200M, 400M, Long Jump, and Discus) at The Pike School (middle school)
